

## **Meeami Technologies to Discuss the Future of Artificial Intelligence (AI)**

*COO Doug Makishima will discuss the Future of AI, Voice IoT, and Virtual Assistants at this week's Mobile World Congress Shanghai #MWCS*

**Shanghai, China (MWC Shanghai 2018) and Santa Clara, CA – June 28, 2018** -- [Meeami Tech](#), the leader in IP Communications and voice IoT, today announced that chief operating officer Doug Makishima will participate in “AI Predictions” a panel presentation offered at the [Think, AI Summit](#) being held at [MWC Shanghai](#) on Friday, June 29, 2018 in Hall N5, Auditorium A of the Shanghai New International Exhibition Center.

The Think, AI Summit will bring together the global leaders of innovation, technology and business, futurists, scientists and pioneers to decode the future of global trends and technologies. During the AI Predictions panel in the “Building a Society Powered by AI” segment, Makishima and other key industry leaders will discuss their predictions on how AI technology will change our lives and impact business over the next 12 months and into the coming decades.

Joining Doug on the panel are Huang Hai Bo, Managing Director, China Mobile Fund and Eric Thain, General Manager, Shanghai & Head of Digital, LEWIS.
