

Meeami Technologies to Discuss Artificial Intelligence (AI) and China-US Collaboration

COO Doug Makishima will discuss Voice IoT, AI, Chatbots and Virtual Assistants at this week's Mobile World Congress (MWC) Americas

San Francisco, CA (MWC Americas 2017) – September 11, 2017 -- [Meeami Tech](#), the leader in IP Communications and voice IoT, today announced that chief operating officer Doug Makishima will present in the [China-US Innovation and Investment Summit](#) being held at [MWC Americas](#) on Wednesday, September 13, 2017. Makishima will present in Session 2 of the summit, entitled "Artificial Intelligence and China-US Collaboration," from 1:45 pm - 2:30 pm in Moscone West, Level 2, Theater 2020.

China and the U.S. are the home to some of the world's most innovative high-tech companies. The innovation economy in the two countries has been energized by rapid technological development, late-stage R&D and foreign investments. Join us to learn more about how the two countries' successful organizations are approaching these rapid changes and why collaboration is needed to support this boom. During the presentation, Makishima will discuss how tech innovation in AI, Chatbots & Virtual Assistants will change our lives and impact business both in China and in the US over the coming decades. Joining Doug in the summit's session 2 is Google's Bill Luan, Greater China Regional Lead, Developer Relations.
